Objective –

As a passionate Junior Frontend Developer, I bring a solid foundation in HTML, CSS, and JavaScript, coupled with a keen eye for design and user experience. I have a proven track record of maintaining code, troubleshooting software issues, and improving usability.

I am eager to apply my problem-solving skills and commitment to quality to a dynamic team.

Education –

Bachelor of Science in Computer Science,

Ignatius Ajuru University of Education, Nigeria (2023 till date)

Skills –

- Proficient in HTML5, CSS3 and JavaScript.
- Experience with front-end Libraries such as Tailwindcss and ReactJs and Supabase for robust backend solutions
- Strong understanding of responsive web design principles
- Knowledge of version control systems like Git
- Ability to work collaboratively in a team environment

Projects –

1. **E-commerce Website** – Developed a fully functional e-commerce website using ReactJs, TailwindCSS, and Supabase for backend Implemented features such as product listing, shopping cart, and checkout system.

2. **Portfolio Website** – Designed and developed a personal portfolio website to showcase my work and skills. Used responsive design techniques to ensure optimal viewing experience across devices.
